Privacy and focus.
Wherever work happens.

US PRICEBOOK 2026

Private Spaces

Thinkspace introduces HushFree, the largest and most advanced range of acoustic pods on the market. Designed for today’s professional, each pod is thoughtfully engineered to meet a specific need—whether for private calls, video meetings, focused work, or collaboration.

Featuring Class-A acoustics and the new Intelligent Hush Assistant technology, HushFree automatically adjusts lighting to the human circadian rhythm and regulates ventilation for enhanced comfort. Built-in castors allow effortless relocation, while flexible power options, an occupancy sensor, a VESA mount, and configurable furniture—like freestanding tables and comfortable sofas—make HushFree a truly adaptive solution for modern workspaces.

Hushfree XS (Base Model)

Hushfree XS is an acoustic single person booth designed for quick, private phone calls. It features a standing height worksurface together with LED facial lighting. It can be equipped with a Mickey Stool for comfort.

Included with Hushfree XS

HushAssistant Technology
HushAssistant is a 4-inch round, high-resolution touchscreen lighting and ventilation controller. It allows users to manage and adjust their lighting and airflow settings. HushAssistant can adjust brightness, color and activate scenes (moods) for different needs. HushAssistant also provides airflow adjustments to improve air quality and energy efficiency. Part of HushAssistant's functionality is to manage and display meeting room availability. The system supports integration with the Microsoft 365 platform.

LED Strip Lighting
With LED facial lighting, users can enjoy well-lit, private conversations with comfort.

Ventillation
The new ventilation system circulates the air in the pod even faster, ensuring optimal working conditions.

Integrated Mobility
All pods are fully mobile with integrated castors. No disassembly required and relocation takes minutes.

Handle
New handle with magnetic door closure and anti-collison decals for added safety.

Hushfree XS Optional Equipment

Data and Electrical Capabilities
Electrification (Location Points) always need to be configured in pairs.

VISUAL EXAMPLE

	POWER OUTLET	USB (A+C) 5V / 25W MAX
L1	Included	+ $545

Included with Hushfree M Access

Zero threshold entrance with wider doors

The Hushfree Access M is a high-performance acoustic pod designed and adapted for people with disabilities in a compact size. The low threshold design enables an easy and relaxed entry along with a wider door and special handle for ADA access. The pod is designed to accommodate a T-turn of a wheelchair.

hushAssistant

HushAssistant is a 4-inch round, high-resolution touchscreen lighting and ventilation controller.

Adjustable LED Lighting

The new LED lighting system provides lighting with a light temperature of 4000K and 500 lux at the tabletop level for even more effective work.

Ventillation

The new ventilation system circulates the air in the pod even faster, ensuring optimal working conditions.

Handle

New handle with magnetic door closure and anti-collison decals for added safety.

Hushfree M Access Optional Equipment

Data and Electrical Capabilities

Electrification (Location Points) always need to be configured in pairs. Location Points 3 and 4 are always under the HushTable M.

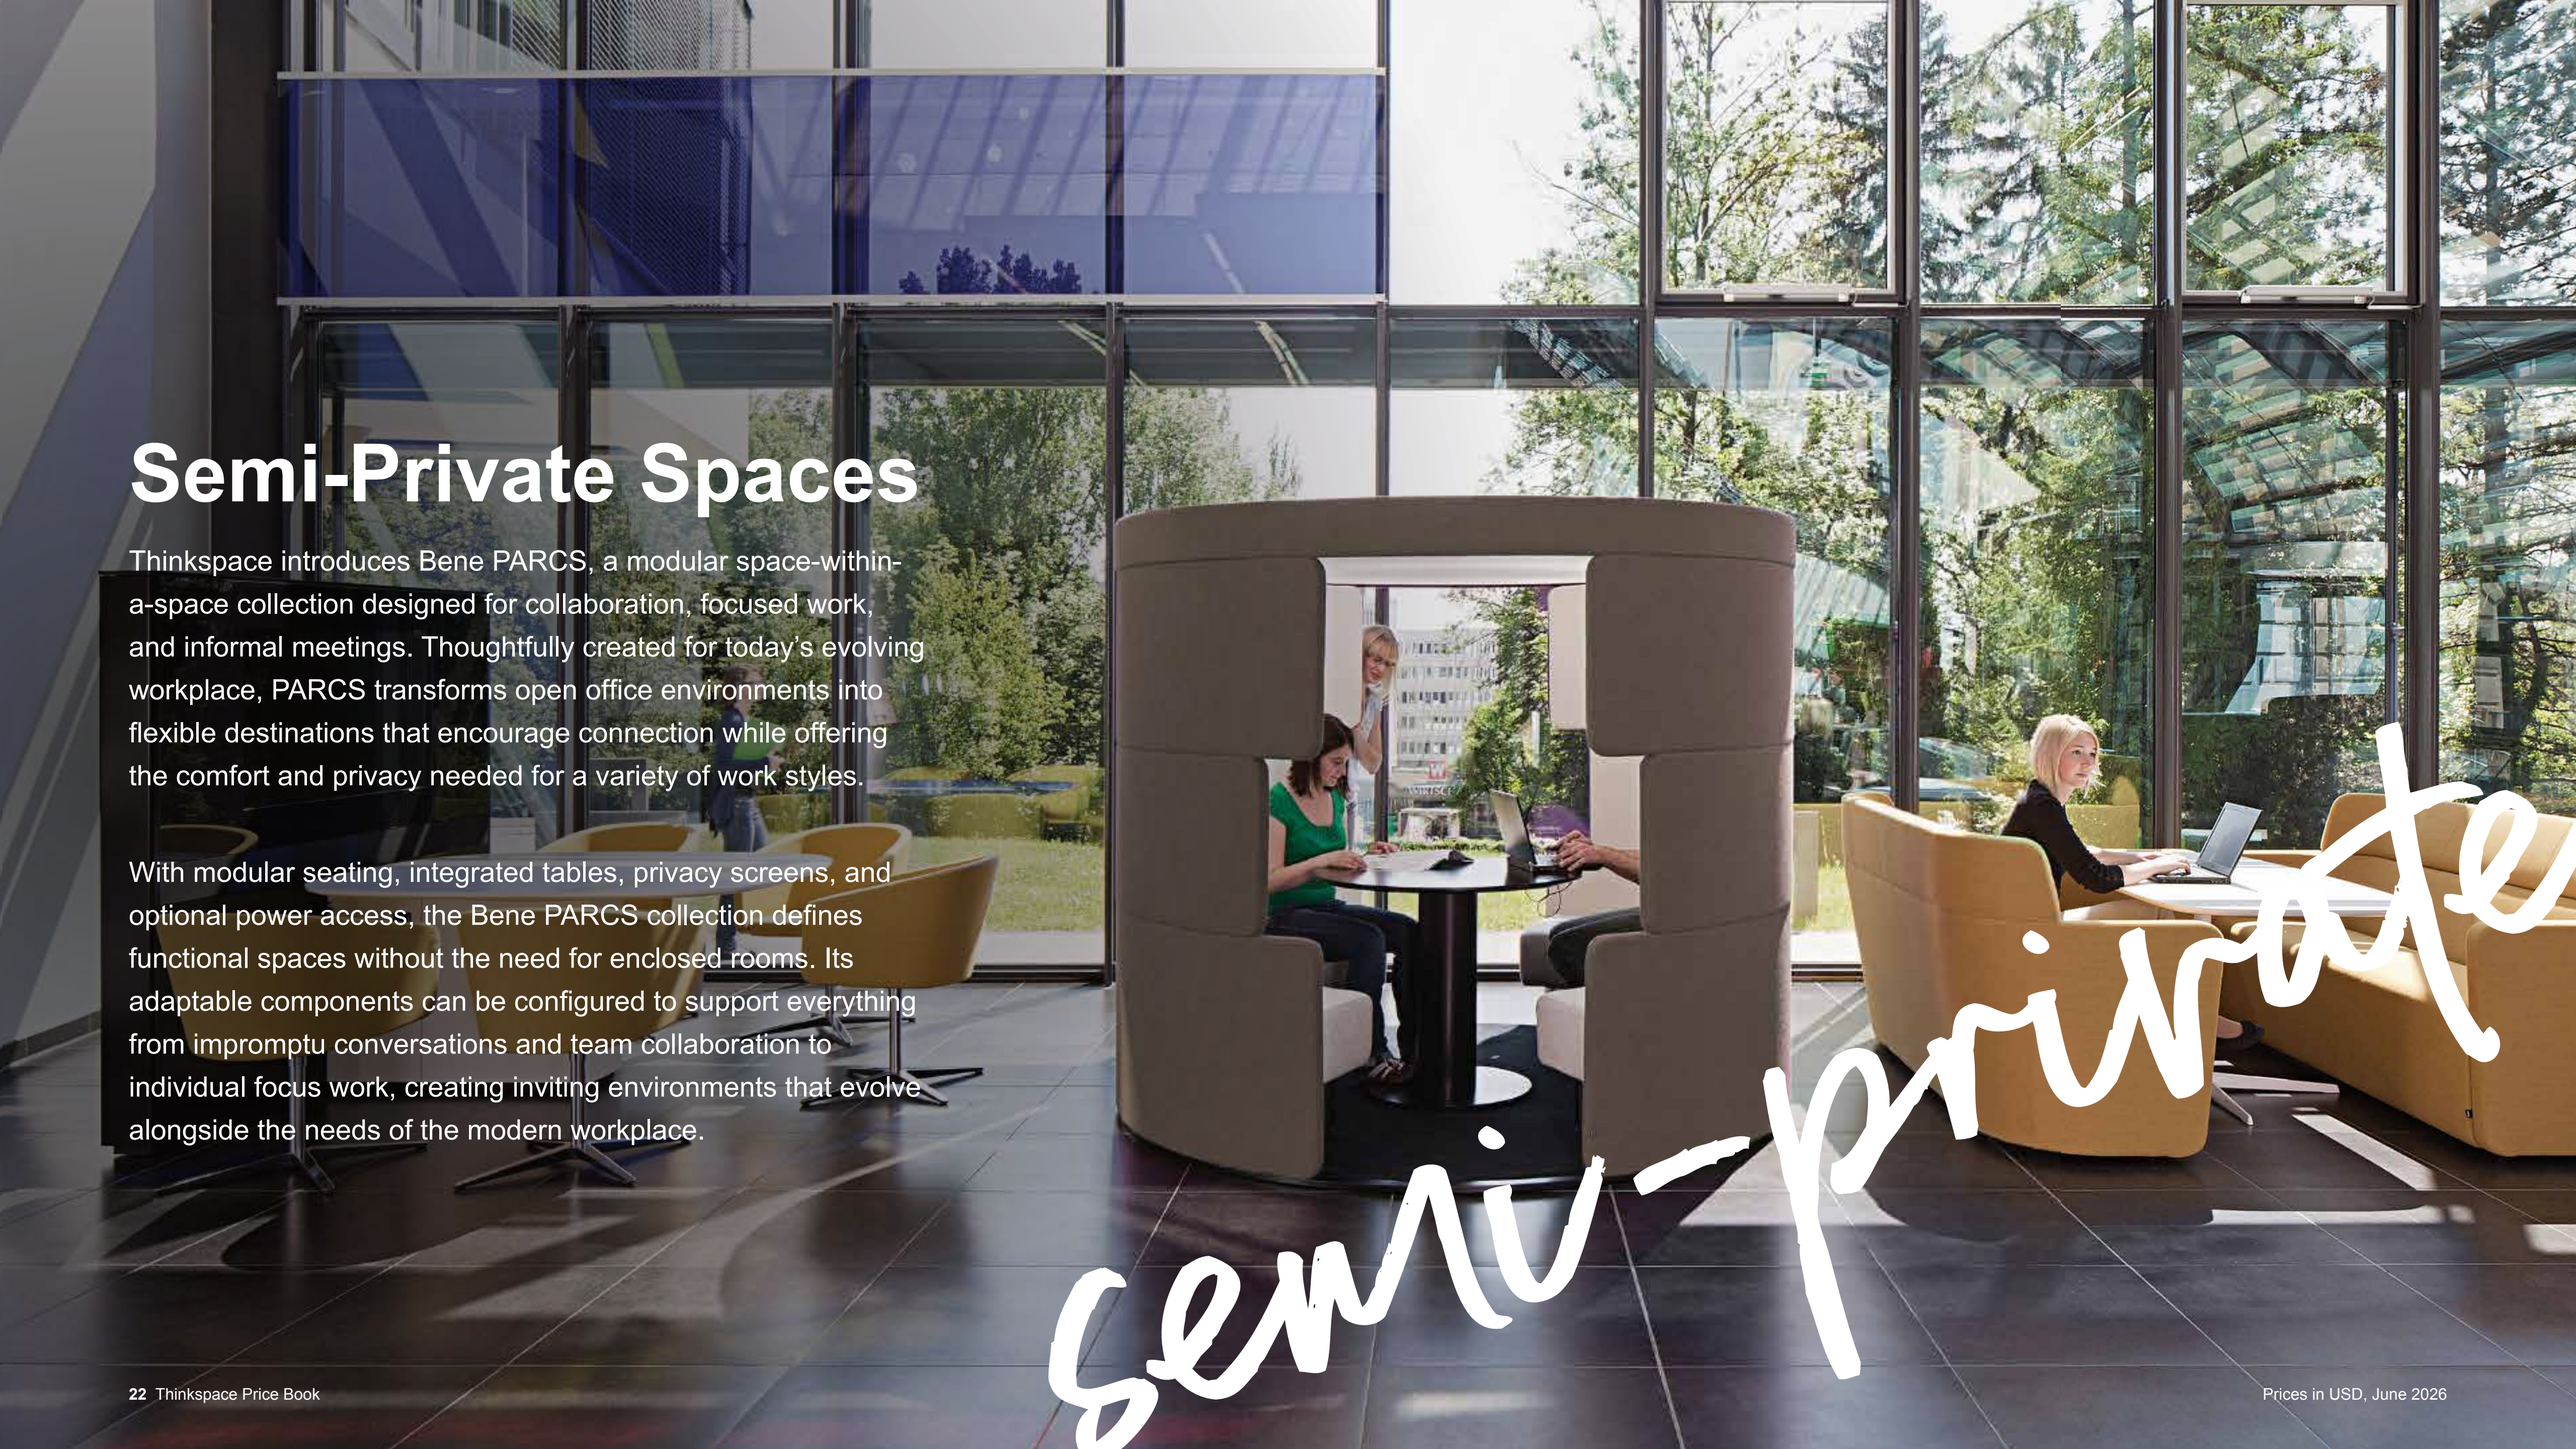
Semi-Private Spaces

Thinkspace introduces Bene PARCS, a modular space-within-a-space collection designed for collaboration, focused work, and informal meetings. Thoughtfully created for today's evolving workplace, PARCS transforms open office environments into flexible destinations that encourage connection while offering the comfort and privacy needed for a variety of work styles.

With modular seating, integrated tables, privacy screens, and optional power access, the Bene PARCS collection defines functional spaces without the need for enclosed rooms. Its adaptable components can be configured to support everything from impromptu conversations and team collaboration to individual focus work, creating inviting environments that evolve alongside the needs of the modern workplace.



Bene Toguna High

Bene Toguna High is a semi-private meeting space with integrated acoustic shielding for open office environments. Designed for brainstorming, informal meetings, and focused work, it creates a defined room within a room while maintaining an open layout.

Wellness Spaces

Thinkspace introduces the LoOok Wellness Collection, featuring the NeuroPod and Recovery Chair, designed to bring restorative wellness into the workplace. Created to help users relax, recover, and re-energize throughout the day, these innovative solutions provide dedicated spaces for mental reset, stress relief, and improved focus without disrupting the flow of work.

Powered by low-frequency vibration technology, the NeuroPod and Recovery Chair help reduce stress, encourage relaxation, and support overall well-being in just minutes. Whether used between meetings, after intensive work sessions, or as part of a daily wellness routine, the LoOok Wellness Collection promotes healthier, more balanced work environments while helping users return refreshed, focused, and ready for what’s next.

LoOok NeuroPod

Powered by Neurosonic® low-frequency vibration technology, which activates the body's recovery systems, the NeuroPod improves sleep, lowers stress, and boosts focus and energy — passively. Just sit down. The tech does the work.
